

PAAMIUT

FHB 2014

Generally: On most days there are several artificial magnetic disturbances per day ($\approx 1 - 2$ nT). Events exceeding 5 nT were deleted, smaller events are still in the data.

Month	Time uncertainty [s]	Data quality comments and issues
January	± 2	3 rd , 4 th , 11 th : Artificial magnetic disturbances, deleted.
February	± 2	
March	± 2	25 th : Artificial magnetic disturbances, deleted.
